Add another dimension to your quilting with circular applique on the HUSQVARNA VIKING® DESIGNER RUBY Royale™ sewing and embroidery machine. Think texture and visual interest! Get out the circular sewing attachment and learn a fun new way to use it as you create a modern wall-hanging. You will learn new techniques using twin needles, gimping, and echo quilting as you create several blocks. Then put them together in a way that will take your wall-hanging from ordinary to extraordinary!

**Sewing Supplies:**

- HUSQVARNA VIKING® Circular Sewing Attachment 920344096
- HUSQVARNA VIKING® Ruffler Attachment 920032096
- HUSQVARNA VIKING® Open Toe Foot 412800945
- INSPIRA® universal needle, size 80 620098096
- INSPIRA® twin needle, size 2.0/80 620104696
- INSPIRA® 6" Duck Bill Applique Scissor 620102596
- INSPIRA® Fast & Easy Tear-A-Way Light 12"x10 yards 620113296
- Fabric A, 2/3 yard front and back panels
- Fabric B, 4" x 45" strip of contrast fabric for ruffle sashing
- Fabric C, D & E 6" squares of 3 different fabrics for the applique pieces
- Lightweight fusible batting 12" x 32"
• Sewing thread and 2 Robinson Anton 40 wt. rayon embroidery threads to coordinate with fabric colors
• Basic sewing supplies: 6'' ruler, marking pen, pins, applique scissors, seam ripper, small screw driver to change needles

Cut:
From Tear Away Light Stabilizer:
12"W x 16"L

From Fabric A:
12" W x 45" L
12" W x 16" L
(2) 8"W x 12"L

From Fabric B:
(2) 2"W x 45" L for the ruffle sashing strips

Fabrics C, D & E:
6"x6" for the applique

Prepare:
1. Take the 12"W x 16"L piece and use template to mark positions for the circles.

2. Place the 12" W x 16" L piece of Fabric A on top of the stabilizer. Pin in place.

Sew
1. Insert the INSPIRA® universal needle, size 80. Thread your machine with sewing thread on top and in the bobbin.
2. Snap the Circular Attachment on to your sewing machine. Snap the two hooks on the attachment into the two holes on the stitch plate.
3. Applique circle #1. Choose one of the applique squares and place the pivot pin in the center of the applique square and then place it into the center of the first circle marked on the fabric.

6. Applique #3. Select the last applique square. Repeat the process setting the Size Guide to 4|10. Place this third circle onto the main fabric according to the template.

**Twin Needle Echo Stitching**

1. Remove the universal needle and insert the twin needle.

2. Remove the sewing thread and rethread your machine with two spools of the embroidery thread.

3. Continue sewing with straight stitch A1:2. Start with circle applique #1. Place pivot pin in center of the circle and then place the pivot pin into the hole on the SizeGuide. Move the SizeGuide out about ½" from the original number. Start stitching around the large circle starting and ending at the outer edge of the small circle #2. Repeat the twin needle stitching 2-3 times.

4. Repeat the twin needle stitching once around the small circle #2 and then 2-3 times around circle #3.

5. Remove the twin needle and replace with the universal needle.
**Decorative Stitching**

1. Thread your machine with one of the embroidery threads. Cover the raw edges of each circle with decorative stitches. Set the SizeGuide to the original settings for each circle. Change thread color as desired for effect.

My personal preference is to use a satin stitch. My favorites on the HUSQVARNA VIKING® DESIGNER RUBY Royale™ are F1:1 Satin Stitch, F1:6 Grass Stitch and F1:7 Fur Stitch. Decrease the stitch width to 5.5. Feel free to experiment with other stitches and other settings.

2. If desired, sew a decorative stitch inside each of the larger circles. Another personal favorite is A1:8, Reinforced Straight Stitch.

**Ruffled Sashing**

1. Remove embroidery thread and rethread your machine with sewing thread.

2. Remove ankle and presser foot and attach the Ruffler. Set Ruffle gauge to 6. Select straight stitch A1:2, length of 2.5.

3. Take Fabric B, the two long strips of fabric. Ruffle both sides of each strip.

4. Cut each ruffle strip to 12".

**Construction**

1. Remove Ruffler and attach the ankle and presser foot A. Select A1:2 straight stitch and use a 1/2" seam allowance.

2. Take the applique panel and tear away the stabilizer.

3. Attach one ruffled sashing to each 12" side.

4. Attach a 12" x 8" piece of Fabric A to the ruffled sashing for the upper and lower panels.
5. This creates the front panel of the wall-hanging which is approximately 12" wide by 34" long.

6. Cut the long piece of Fabric A to the same length as the front panel.

7. Cut the batting the same length as the front and back panels.

8. Fuse the batting to the back panel.

9. Create a rod pocket on the back panel by cutting a piece of the remnant Fabric A, 3" x 11". Fold and press under ½" on both short 3" sides. Stitch in place.

10. Fold under one of the 12" sides of this rod pocket piece ½" and press. Center and place this piece (wrong side to right side of the back panel) along the top edge of the back panel piece, lining up the raw edges. Sew in place along the folded edge.

11. Place the front panel right sides together to the back panel and sew along both long sides and the upper edge. Sew the lower edge only 1" or so from the corners, leaving an opening in order to turn the wall hanging right side out.

12. Turn the wall hanging right side out. Press along seam allowance edges and along the lower edge. Fold under the lower edge ½", press and stitch the opening closed.

Now you are ready to hang your new creation so everyone can admire it!
